MORE THAN MALPRACTICE INSURANCE.

>>> WE DO IT ALL.

PICA has provided podiatric physicians professional liability protection for over 30 years. Did you know PICA can also support your practice with other business insurance needs and retirement planning programs, and can provide assistance for maintaining or growing your podiatric group practice?

Stop by booths 500/502 at the Midwest Podiatry Conference to learn how PICA can assist you.

PRESIDENT'S MESSAGE

Welcome to the 2011 Midwest Podiatry Conference! Whether this is your first time attending the conference or you've been coming for 30 years, you will find this year's conference an exceptional experience and an incredible value. The Conference has always strived to provide an educational experience second to none. This experience extends not only to podiatrists but to podiatric assistants and other staff. The assistants' program continues to be an important part of the Conference and is a tremendous opportunity for any practitioners who bring staff members to this meeting. Recently, the Board Review Course offered during the Conference has grown to become a popular and valued part of the Conference. Podiatrists taking the Boards for the first time, getting ready for recertification, or just wanting to review a particular topic, all agree that this course provides the necessary information in a well-organized, concise format.

The large exhibit hall is another important aspect of the Conference. This hall provides one of the biggest venues for doctors and assistants to see the latest technology and innovations that affect the profession. There is also ample time for one on one discussions with vendors to answer any questions you may have regarding products and services that will benefit your practice.

All of this is provided in the center of Chicago at the Hyatt Regency. Not only is this a great setting for the Conference, Chicago also provides endless opportunities for family members who come along.

Finally, thank you to the attendees and exhibitors who continue to make this conference such a huge success each year. We look forward to seeing you March 3 - 6, 2011!

Enjoy the conference,

Steven Wachter, DPM, President

MPC Board of Directors

MISSION STATEMENT

Promote the art and science of podiatric medicine and the betterment of public health through an annual program of continuing education and other professionally oriented instruction for member podiatric physicians.

Achieve a better rapport and understanding among the health professions, and increase public awareness of podiatric medicine through public relations activities.

Fun Fact

In 1900, Chicago successfully completed a massive and highly innovative engineering project – to reverse the flow of the Chicago River so that it eventually emptied into the Mississippi River rather than Lake Michigan. Each year, the Chicago River is dyed green to celebrate St. Patrick's Day.

GENERAL INFORMATION CONT.

Extra Fees

Spouse & Guest Registration

A \$5 exhibit hall only badge may be purchased at on-site registration for a spouse, significant other, or child of a registered attendee. Doctors and office staff are not eligible to register at the spouse and guest rate, they must register at the appropriate doctor/assistant conference registration fee.

Due to liability issues such as the possibility of injury from surgical equipment, we strongly discourage attendees from bringing children under the age of 16 into the exhibit hall.

At no time are children, spouses or guest registrants allowed in workshop settings.

Returned Checks A \$35 service fee will be assessed for any returned checks.

Lost Badges There is a \$5 replacement fee for a lost badge.

Attendance Verification and Scanning Procedures

Attendee name badges will be scanned TWICE daily, once in the morning and once in the afternoon. Please review

the chart below for scan times and locations. Attendees are responsible for insuring that their badge is scanned at the appropriate times.

Continuing Education Contact Hours will be awarded solely for actual days in attendance at the conference. If you attend and scan twice a day for all four days, you will receive up to 30 CME's for Doctors or 21 CME's for Assistants.

DPM Workshop Disclaimer

Any and all participants attending workshops are responsible for their own eye protection. The Midwest Podiatry Conference is not liable for any injuries of its exhibitors, invitees, guests or conference attendees in connection with any workshop related to the use, maintenance or handling of any material or equipment requiring the use of protective eye devices or any other protective equipment during the 2011 Midwest Podiatry Conference.

Sponsorship/Exhibiting Endorsement Disclaimer

Acceptance of sponsorship and/or exhibiting of vendors at the Midwest Podiatry Conference ("MPC") does not imply endorsement or approval of the company, product or service by the Midwest Podiatry Conference.

Podiatric Residents and Fellows:

14th Annual International Post-Graduate Research Symposium

Held at the Midwest Podiatry Conference
Hyatt Regency Chicago, IL
March 5, 2011

Call for Abstracts

Present Your Research Findings

The Midwest Podiatry Conference invites you to participate in the 14th Annual International Post Graduate Research Symposium in Chicago, Saturday, March 5, 2011. This conference was previously only open to US podiatric residents and fellows. The 2011 event will mark the 3rd year that the symposium is accepting abstracts from all over the world, providing researchers with even more exposure.

Abstracts on various topics including wound care, diabetes, surgery and podiatric medicine have been presented in recent years from participants across the country. The 2010 first, second and third place award winners are listed below:

1st Place - \$400, J. George DeVries, DPM, AACFAS
(*Orthopedic Foot & Ankle Center Surgical Fellowship*)

2nd Place - \$200, Wenjay Sung, DPM
(*University of Pittsburgh Medical Center*)

3rd Place - \$150, Katherine Schimka, DPM
(*Loyola University PM&S 36*)

Participants agree that the conference is an excellent opportunity to receive recognition of their work and to network with fellow residents and participating podiatrists. Doctors who attend the symposium during the past 13 years described it as having some of the best innovative and forward thinking content of any lectures at podiatric seminars.

Residents and fellows are an important part of podiatry today and will be the medical professionals of tomorrow. The 2011 IPGRS is seeking the broadest and most diverse selection of abstracts possible. This symposium affords practicing DPMs the opportunity to know and understand the contributions that residents and fellows are already making in the field of podiatric medicine and surgery.

We hope you will be able to join us for this unforgettable event.

The 2011 IPGRS Awards are sponsored by:
