

4/19/2012

Pediatric Program

4/19/2012 7:30 AM - 12:00 PM Grand CD

Common Lower Extremity Causes For Differences in Limb

Edwin Harris, DPM

4/19/2012 7:30 AM - 8:15 AM Grand CD

1) The participant will understand determining causes for difference in limb length in the pediatric patient. 2) The participant will understand the need to judge for progression. 3) The participant will become familiar with the common causes for difference in limb length in the pediatric patients.

This Is Something I'll Bet You Never Saw Before

Edwin Harris, DPM

4/19/2012 8:15 AM - 8:30 AM Grand CD

The participants will have reinforcement of the index of suspicion when progressive deformity occurs. 2) The participants will be able to select the proper methodology to work up cases of this type. 3) The participants will understand treatment options.

The Orthotist's Approach to Managing Differences in Limb

Robert Genaze, CPO

4/19/2012 8:30 AM - 9:15 AM Grand CD

Gait Studies On Difference In Limb Length In Children

Michael Aiona, MD

4/19/2012 9:30 AM - 10:15 AM Grand CD

Understand the various compensations for LLD - Become aware of some of the conditions that may cause LLD - Learn the effects of LLD on the work performed by the lower extremities - Understand the potential long term effects of LLD.

This Is Something I'll Bet You Never Saw Before

Michael Aiona, MD

4/19/2012 10:15 AM - 10:30 AM Grand CD

The various managements of the foot in CMT - the incidence of hip dysplasia in CMT - Some of the genetic studies in CMT.

Epiphyseodesis In the Management of Limb Length Inequality

Terri Cappello, MD

4/19/2012 10:30 AM - 11:15 AM Grand CD

Participants will learn to: 1. List the indications for non-operative vs operative management of lower extremity limb length inequality based upon predicted leg length discrepancy at skeletal maturity. 2. Describe the normal growth contribution in mm/year of the distal femoral, proximal tibial and distal tibial physes. 3. List treatment technique options for epiphyseodesis of the distal femur, proximal tibia, distal tibia/fibula.

The Surgical Management of Congenital Convex Pes Valgus

Matthew Dobbs, MD

4/19/2012 11:15 AM - 12:00 PM Grand CD

E.H.R. and Meaningful Use

John Guilliana, DPM

4/19/2012 8:00 AM - 9:00 AM Grand EF

APMA Regional Lecture Series

4/19/2012 8:00 AM - 9:00 AM Grand EF

Vascular Diseases - Latest Treatment Advances -

Sponsored by BioMedix

Thomas Levin

4/19/2012 9:00 AM - 9:45 AM Grand EF

Electronic Health Records: Beyond Incentives - Unlocking the Potential of Health Information Technology and Collaboration to Improve Patient Care - Sponsored by BioMedix.

John Guilliana, DPM

4/19/2012 9:45 AM - 10:30 AM Grand EF

The Diabetic Foot: The Role of Off-Loading in Ulcer Treatment and Prevention - Sponsored by CrocsRx.

Doug Richie, DPM

4/19/2012 10:30 AM - 11:15 AM Grand EF

Bullous/Blistering Diseases of the Skin- Diagnosis and Management - Sponsored by Bako Pathology.

Brad Bakotic, DPM, DO

4/19/2012 11:15 AM - 12:00 PM Grand EF

Healthcare Provider CPR Chicago's Pulse

4/19/2012 8:00 AM - 12:00 PM Gold Coast

Grand Foyer Conference Break

9:00 AM - 10:00 AM Grand Foyer

Healthcare Provider CPR Renewal Chicago's Pulse

4/19/2012 9:00 AM - 12:00 PM Cominsky

Exhibit Hall Grand Opening-Sponsored by PICA

12:00 PM - 1:00 PM (Scan Time)

Workshops, 1st MPJ Solutions - Sponsored by Osteomed

Russell Caprioli, DPM

4/19/2012 10:00 AM - 12:00 PM Columbus GH

1. Gain knowledge and skill in arthroplasty for the First MPJ including Total Joint and Metatarsal Resurfacing. 2. Learn to Accomplish First MPTJ Fusion utilizing locking plate fixation.

Workshops, Cutaneous and Soft Tissue Biopsies and Excisional Plastic Techniques; A Didactic and Technical Workshop- Sponsored by Bako Pathology

Brad Bakotic, DPM, DO, G. Dock Dockery, DPM, FACFAS,

Bryan Markinson, DPM

4/19/2012 1:00 PM - 3:30 PM Columbus GH

Review various dermatological manifestations of both systemic disease, and localized neoplastic conditions. This session will include direction regarding the biopsy indications, and appropriate biopsy techniques for characterizing dermatitides, dermatoses, and various cutaneous neoplastic processes. Finally, there will be discussion and demonstration regarding the utility and significance of epidermal nerve fiber density analysis, and the subtle, but important differences between this technique and a routine punch biopsy of skin.

Developing Centers of "Excellence for the Diabetic and Senior Patient Populations: Pearls for implementing evidence based tools to improve outcomes and practice growth Co-sponsored by Amerx

4/20/2012

Changing Concepts in Culture Techniques and Laboratory Evaluation of Diabetic Foot Ulceration Sponsored by Advanced BioHealing

Allen Jacobs, DPM

4/20/2012 8:45 AM - 9:30 AM Grand EF

Exhibit Hall Break

9:30 AM – 10:00 AM

Does My Patient Have Osteomyelitis?

Sponsored by Advanced BioHealing

Allen Jacobs, DPM

4/20/2012 10:00 AM - 10:45 AM Grand EF

Evaluation and Management of Neuropathy in the Office Setting

Sponsored by Advanced BioHealing

Allen Jacobs, DPM

4/20/2012 10:45 AM - 11:15 AM Grand EF

Epidermal Nerve Fiber Density Testing in Diabetic Neuropathy

Sponsored by Advanced BioHealing

Brad Bakotic, DPM, DO

4/20/2012 11:15 AM - 11:45 AM Grand EF

Charting the Diabetic Foot: Principles for Effective Documentation

Sponsored by Advanced BioHealing

Allen Jacobs, DPM

4/20/2012 11:45 AM - 12:00 PM Grand EF

Sponsored Luncheon, Dermagraft: Active Living Cells Advanced Bio-Healing/Dermagraft

4/20/2012 12:00 PM - 1:00 PM Columbus GH

Strategies for the Evaluation and Management of Forefoot Ulceration

Sponsored by Advanced BioHealing

Vincent Sollecito, DPM

4/20/2012 1:00 PM - 1:45 PM Grand EF

Ulceration and Osteomyelitis of the Calcaneus

Sponsored by Advanced BioHealing

Allen Jacobs, DPM

4/20/2012 1:45 PM - 2:15 PM Grand EF

Strategies for the Management of Ulceration in the Diabetic Foot: Case Presentation and Principles for Evaluation and Management

Sponsored by Advanced BioHealing

Perry Geistler, DPM

4/20/2012 2:15 PM - 3:15 PM Grand EF

Exhibit Hall Break

3:15 PM– 3:45 PM (Scan Time)

Learning From Real World Experience: Case Presentations, Principles and Practice in the Management of Diabetic Foot Ulceration

Sponsored by Advanced BioHealing

Rodney Stuck, DPM

4/20/2012 3:45 PM - 4:30 PM Grand EF

Surgical Management of Ulceration and Osteomyelitis

Sponsored by Advanced BioHealing

Allen Jacobs, DPM

4/20/2012 4:30 PM - 5:00 PM Grand EF

Laboratory Practicals: Epidermal Nerve Fiber Density Testing & Dermagraft Preparation and Application

Sponsored by Advanced BioHealing

Allen Jacobs, DPM; Vincent Sollecito, DPM,

Brad Bakotic, DPM, DO; Perry Geistler, DPM

4/20/2012 5:00 PM - 6:00 PM Grand EF

Intensive Small Group Discussion Series: High Risk Foot:

4/20/2012 7:00 AM - 9:00 AM Grand CD

Absolutes I've Learned in the Last 25 Years

Barry Rosenblum, DPM

Charcot Reconstruction

Patrick Burns, DPM

Foot Infection Update

Warren Joseph, DPM

Important Changes I've Made in the Last 5 Years in

Treating the Non-Healing Ulcer

Lee Rogers, DPM Sponsored by Pal Health

Know how to characterize slow to heal wounds. What is standard care for slow to heal wounds. What is advanced care for slow to heal wounds.

Nsaids, APAP, Opioids, Anti-depressants and Anit-seizure meds. Which durg, Which Patient, Which Schedule and Why

Robert Barkin, MBA, FCP

- At the close of this session the participant will be able to create a more personalized plan.

Tips & Pearls: Imaging Evaluation

Robert Baron, DPM

- Review advanced imaging modalities available to the podiatric physician.
- Appropriate ordering of imaging studies to get the most information available. -What imaging studies are appropriate for a given clinical scenario.

Intensive Small Group Discussion Series:

Treating Complications of the Forefoot

4/20/2012 10:00 AM - 12:00 PM Grand CD

Subsession, Correcting the Latrigenic Short First Metatarsal

Mickey Stapp, DPM

Fifth Metatarsal Osteotomies

Larry Fallat, DPM

Hallux Varus Correction

Allen Jacobs, DPM

Salvage of the Falied Hammer Toe Correction

Mark Tagoe, FPodA, FCPodS

Stainsby Procedure

Angela Simon, DPM

Subluxed Second Metatarsophalangeal Joint: What to Do

Guido Laporta, DPM

4/21/2012

Group 1 – Diabetes/Wound Care

- 7:45 AM **Retrospective Analysis of Clinical Outcomes Using a New Treatment Algorithm for Diabetic Foot Infections** - Lauren Smith, DPM
- 7:55 AM **Charcot Foot Reconstruction: Technique and Outcomes** - Yelena Boumendjel, DPM
- 8:05 AM **Prealbumin as a Prognostic Value for Healing Potential in Pedal Amputations** - Monica Friedrich, DPM
- 8:15 AM **The Use of Human Derived Dermal Substitutes with Relation to Patient Co-morbidities and Laboratory Parameters** - Shawn Norris, DPM
- 8:25 AM **A Novel Pragmatic Paradigm to Evaluate Lower Extremity Joint Perception in Diabetes** - Gurtej Singh Grewal

Group 1 Questions - 8:35 AM – 8:45 AM

Group 2 – Plantar Fasciitis

- 8:45 AM **Intra and Inter-operative Reproducibility of Ultrasound in Measuring Plantar Fascial Thickness** - Donald Graves, DPM
- 8:55 AM **Body Mass Index, Plantar Fasciitis & Surgical Intervention - A Ten Year Retrospective Analysis** - Erin Klein, DPM
- 9:05 AM **Using a Class IV Infrared Laser for Treatment of Recalcitrant Plantar Fasciitis Following Failure of Other Conservative Treatment Methods** - Anton Sella, DPM
- 9:15 AM **Baseline Clinical Exam Findings Help to Predict Treatment Success in Patients Receiving Mechanical Support for Plantar Fasciitis** - Jeanna Fascione, DPM
- 9:25 AM **Sonographic Predictors of Treatment Response in Patients Receiving Mechanical Support for Plantar Fasciitis** - Margaret Andrews, DPM

Group 2 Questions - 9:35 AM – 9:45 AM

Break - 9:45 AM – 10:00 AM

Group 3 – Surgery

- 10:00 AM **Retrospective Analysis of Mini-Open Repair Versus Open Repair for Acute Achilles Tendon Ruptures** - Erin Klein, DPM
- 10:10 AM **Total Ankle Joint Replacement with Endoscopic Gastrocnemius Recession** - Jeffrey Wunning, DPM
- 10:20 AM **Radiographic and Clinical Exam Predictors of Plantar Plate Tears** - Erin Klein, DPM
- 10:30 AM **The Efficacy of MRSA Swabbing: Do Swab Outcomes make a Difference in Pre-Operative Antimicrobial Prophylaxis in Podiatric Surgery** - Amanda Brazis, DPM
- 10:40 AM **Outcome after Metatarsal Osteotomy for Hallux Valgus: A Study of Post-Operative Foot Function Utilizing the Revised Foot Function Index Short Form** - Nicholas Smith, DPM

Group 3 Questions - 10:50 AM – 11:00 AM

Group 4 – Podiatric Medicine/Biomechanics

- 11:00 AM **Affect of First Metatarsal head shape on joint stability in the transverse plane** - Svend Bjorn, DPM
- 11:10 AM **The effect of Subtalar Joint Positioning on Ankle Dorsiflexion and its Ability to Isolate a Gastrosoleal Stretch** - Sarah Mahowald, DPM
- 11:20 AM **Bleomycin Dermojet Delivered Injection Versus Pulsed Dye Laser Treatment of Recalcitrant Plantar Warts** - Aaron KJ Kim, DPM
- 11:30 AM **A Novel Game-based Virtual Reality Balance Training Paradigm for Diabetes** - Gurtej Singh Grewal
- 11:40 AM **Effectiveness of Mild Compression Socks on Diabetic Patients with Lower Extremity Edema** - Sai Vikas Yalla

Group 4 Questions - 11:50 AM – 12:00 PM

IPGRS Participant Awards Luncheon 12:00 - 1:00 PM Toronto

Exhibit Hall Breakfast

9:00 AM – 10:00 AM

Workshops, Columbus GH

Oak Based Therapy- New Research for Wound Care

Sponsored by Amerxhc

Gene Graham, DPM

4/21/2012 9:30 AM - 10:30 AM

1. Be aware of Oak Bark technology and how tannins affect wound healing
2. Be aware of different wound healing algorithms in the treatment of MRSA infected lower extremity wounds.
3. Know what type of wound dressing to use on different types of wounds.
4. Be able to identify and discuss the costs of treatment of wounds with their patients.

FUN FACTS!

The late Mayor Richard J. Daley and former Mayor Richard M. Daley became the father-son team to head the United States Conference of Mayors in 1996.

Chicago was incorporated as a city in 1837.

4/21/2012

Improved Patient Care Through Lawsuit Protection and Prevention for Podiatrists
G. Kent Mangelson, CFP

4/21/2012 10:00 AM - 12:00 PM Grand EF

1. Maintain focus on improved patient care rather than lawsuit defense. 2. Structure practice for lawsuit protection and prevention. 3. Implement legal structures that will reduce liability insurance costs.

Exhibit Hall Lunch

Sponsored by Midwest Podiatry Conference
 12:00 PM – 1:00 PM (Scan Time)

Workshops

Guide to KRYSTEXXA® (pegloticase) in Refractory Chronic Gout Patients
Allan Morton, DO, PC

4/21/2012 1:00 PM - 2:00 PM Columbus GH

1. Distinguish the commonalities and differences between gout of refractory chronic gout (RCG) Review KRYSTEXXA® (pegloticase) Phase 3 Trial Design and Results. 2. Provide clinical guidance risk mitigation for anaphylaxis, infusion reactions and flares. 3. Review available KRYSTEXXA resources for clinicians and patients.

Maintenance of Licensure: What Makes the Most Financially Sound Practice
Mike Crosby

4/21/2012 1:00 PM - 2:00 PM Grand EF

Presidents Lecture: The Road to Washington
Brad Wenstrup, DPM

4/21/2012 1:00 PM - 2:00 PM Grand CD

To be informed on: The challenges of business The challenges of healthcare The challenges of military The challenges of campaigning for Congress.

How To Deal With A Psychotic Patient
Julie Waites, Psy.D.

4/21/2012 2:00 PM - 3:00 PM Grand EF

1. Session participants will be able to recognize symptoms of the most commonly diagnosed mental health conditions. 2. Session participants will learn basic mental health techniques which can be used to facilitate a positive patient experience for all patients. 3. Session participants will examine their own beliefs and misconceptions about mental health conditions and learn more about the well established link between mental and physical health.

Myth Busters Panel

Mark Tagoe, FPodA, FCPodS,
Kai Olms, MD, David Caminear, DPM,
Guido Laporta, DPM

4/21/2012 2:00 PM - 3:30 PM Grand CD

Grand Foyer Conference Break
 3:30 PM– 4:30 PM (Scan Time)

Emergency Medicine for the Podiatrist: Killers you cannot afford to Miss!!!

Chad Kessler, MD, MHPE

4/21/2012 4:00 PM - 5:00 PM Grand CD

1. Understand the principles of the New Code Blue. 2. Know exactly what to do when someone passes out. 3. Have a sensible approach to emergencies in the hospital or office setting.

Subsession, Enhancing Practice Outcome
Michael Brody, DPM

4/21/2012 5:00 PM - 6:00 PM Grand CD

Ideal Pre-Op Workup for Surgery
David Yeager, DPM

4/21/2012 5:00 PM - 6:00 PM Grand EF

Grand Foyer Breakfast
 8:00 PM – 10:00 AM

4/22/2012

Lecture, Internal Fixation Principles
Emil Zager, DPM

4/22/2012 7:00 AM - 8:00 AM Grand CD

APMA Coding Seminar

Introduction to APMA Coding Seminar, APMA Website References, The Most Common Podiatric Coding Errors, Podiatric CPT & ICD-9 Coding, Modifiers and V Codes, Coding for Wound Care, Update on ICD-10 Resources and Applications, Diabetic Shoe Coding, Dermatological Coding for Common Skin Procedures, Correct Coding for EM Services (1997 Guidelines), Questions & Answers

David Freedman, DPM, Laura Pickard, DPM, Paul Kinberg, DPM,

4/21/2012

Bone Tumors

Daniel Evans, DPM

4/20/2012 1:00 PM - 1:45 PM Grand AB

Familiarize the podiatric physician with osseous tumors commonly encountered in the foot. Identify the radiographic characteristics of benign and malignant osseous neoplasms. Demonstrate an organized approach to the radiographic evaluation of osseous neoplasms.

Pes Cavus

Arush Angirasa, DPM

4/20/2012 1:45 PM - 2:30 PM Grand AB

1. Understand the basic pathophysiology of Pes Cavus -be able to identify Pes Cavus in case presentations. 2. To narrow the vast topic of Pes Cavus into manageable subsets as it pertains to the oral board setting. 3. Understand various surgical interventions, and appropriateness of each as it relates to the case presentation. 4. To discuss possible surgical sequelae and proper management.

Flatfoot: Work-up From Calf to Toes

David Taylor, DPM

4/20/2012 2:30 PM - 3:15 PM Grand AB

Describe history and physical exam, radiographic findings and clinical tests used to evaluate flatfoot deformity. Discuss the stages of Posterior Tibial Tendon dysfunction. Discuss plane doinance related to flatfoot deformity. Describe etiologies of flatfoot deformity. Discuss soft tissue and osseus surgical procedures to address flatfoot deformity.

Session Break

3:15 PM- 3:30 PM (Scan Time) Grand AB

Lateral Ankle Instability

Zeeshan Husain, DPM

4/20/2012 3:30 PM - 4:00 PM Grand AB

Understand the clinical presentation of lateral ankle instability. Role of imaging modalities in lateral ankle instability and associated comorbidities. Choosing surgical procedures for lateral ankle instability. Managing complications associated with lateral ankle instability procedures or related comorbidities.

Achilles Tendon Surgery

David Yeager, DPM

4/20/2012 4:00 PM - 4:30 PM Grand AB

Rearfoot Arthrodesis

Christian Smith, DPM

4/20/2012 4:30 PM - 5:00 PM Grand AB

1. Review the etiologies that lead to rear foot fusions. 2. Discuss radiographs and ancillary tests in surgical planning for rear foot fusions. 3. Discuss surgical technique and fixation in rear foot fusions. 4. Discuss possible complications and treatment of them.

Pediatrics: Metatarsus Adductus, Clubfoot and Vertical Talus

Edwin Harris, DPM

4/21/2012 8:00 AM - 9:00 AM Grand AB

The participants will have an understanding of the pathology of each of the topics. The participants will have an understanding of treatment options for each of the topics. The participants will have insight into the questions that may be asked on the oral and written parts of the Board Examinations.

Exhibit Hall Breakfast

9:00 AM- 9:30 AM Grand AB

Tarsal Coalitions

Jeffery Alexander, DPM

4/21/2012 9:30 AM - 10:00 AM Grand AB

1. Understand the common physical exam findings of each tarsal coalition. 2. Demonstrate understanding of diagnostic modalities in treatment of tarsal coalitions. 3. Demonstrate understanding in conservative and operative treatment of tarsal coalitions. 4. Understand treatment of common complications associated with tarsal coalition surgery.

Principles of Tendon Transfers

David Taylor, DPM

4/21/2012 10:00 AM - 10:45 AM Grand AB

Describe conditions that may benefit for a tendon transfer. Describe strength grading for manual muscle testing. Define "physiologic tension" when transferring a tendon. Discuss method for fixation of the transferred tendon. Discuss surgical procedures for tendon transfer.

Paralytic Conditions

Brian Elliott, DPM

4/21/2012 10:45 AM - 11:30 AM Grand AB

Understand various paralytic conditions and how these conditions affect the pathomechanics of the foot and ankle. Provide a logical approach to surgically deal with various paralytic conditions. Provide case studies that challenge the physician to plan surgical procedures that most safely improve these sometimes complicated conditions.

Talar Dome Lesions

Arush Angirasa, DPM

4/21/2012 11:30 AM - 12:00 PM Grand AB

Understand the basic pathophysiology of Talar Dome lesions. Be able to identify Talar Dome Lesions in case presentations to narrow the vast topic of Talar Dome Lesions into manageable subsets as it pertains to the oral board setting to understand various surgical interventions, and appropriateness of each as it relates to the case presentation. To discuss possible surgical sequelae and proper management.

Exhibit Hall Lunch

Sponsored by Midwest Podiatry Conference

12:00 PM- 1:00 PM Grand AB

Charcot Reconstruction

Patrick Burns, DPM

4/21/2012 1:00 PM - 2:00 PM Grand AB

To understand current theory on Charcot etiology To understand current treatment trends in Charcot neuroarthropathy To become familiar
